Bridge-to-term improver: Commercial investment

Loan purpose

Investors can take out a single loan that funds refurbishment cost and interest in the early stage before their business meets affordability and debt service cover (DSC) requirements and the long term five year term loan. This avoids the need to refinance.

Once the agreed financial conditions, known as trigger conditions, are met, the loan automatically moves to the lower pricing set for the term loan.

Security types

All commercial property types covered.

Trigger points

The trigger point occurs when the borrowers pre-agreed trigger conditions are satisfied, the pricing falls to the term period rates and the trigger fee is due. Valuation undertaken at lenders cost.

Trigger conditions

- DSC dependent on LTV
- Make 12 interest payments equivalent to 130% of flexed debt service amount
- EPC of C or above
- Valuation equivalent to pre lend GDV
- Minimum borrower Experian credit score of 46

Equity release

On satisfaction of the trigger conditions, the borrower has access to pre-agreed further borrowing if the financial performance supports.
